Kaziranga National Park – a world heritage site, the park hosts two-thirds of the world's Great One-horned rhinoceros. Kaziranga also boasts the highest density of tigers among the protected areas in the world and was declared a tiger Reserve in 2006. Though sighting of tigers can be difficult because of the tall grasses that provide excellent camouflage, their presence can be felt everywhere by way of pug marks, kills and territorial markings. The park is home to large breeding populations of elephants, wild water buffalo and swamp deer.

Undoubtedly, the park is known for its good population of animals but it's the wildlife conservation initiatives that take place in the park that are more popular. With its amazing wildlife conservation activities, the park has successfully managed to grow the population of Greater one-horned rhinoceros, an endangered species.

The vast expanse of tall elephant grass, marshland, and dense tropical moist broadleaf forests undoubtedly makes the park look beautiful but it's the presence of Brahmaputra river, which makes it look enigmatic.

There are many water bodies located all over the park, which provide perfect relief during the hot summer months for the forest wildlife. # BOOKING INFORMATION

---

To book on this exciting safari please fill in the booking form provided.

Please take the time to read and understand all the tour terms and conditions that have been emailed to you.

In order to confirm a booking a **30%** non-refundable deposit is also required.

The final balance payment is then due **90 days** prior to the safari start date.

In the event that you may have to cancel your safari booking then this cancellation notice will need to be made in writing and

For cancellations made **more than 90 days** prior to start date: **30%** cancellation penalty will apply (i.e. full deposit).

For cancellations made **less than 90 days** prior to departure date: **100%** cancellation penalty will apply (i.e. the full booking cost).

## WHY IS YOUR DEPOSIT NON-REFUNDABLE?

Plans made this year may need to be changed for medical or personal reasons. However, as soon as you confirm your place with Bobby-Jo Safaris your 30% deposit is immediately distributed amongst the many lodges, camps & suppliers that are used to make up a successful and memorable safari. It locks in the required services for particular dates often in peak season that the camps or suppliers cannot then offer to other travellers.

Your decision to change your plans might be made months out from the start and often travellers will question – Why can't you just get someone else to take my spot? It is a valid question but sometimes not that easy. The moment we secure those services we are locked in for the safari arrangements for our whole group. Permits & park passes are issued and if we are unable to find other travellers to fill a cancelled spot then Bobby-Jo Safaris is left with paid services and no one to fill them. Additional marketing and promotion expenses are also incurred trying to find other interested travellers.

## TRAVEL INSURANCE

For every traveller that participates in any Bobby-Jo Safaris experience it is a non-negotiable requirement that they purchase and carry a comprehensive travel insurance policy.

It is advised this policy is taken out at the time of paying your deposit to cover you for any unfortunate or unforeseen events either before or during the tour that may affect your plans and therefore could possibly cover cancellation costs incurred.

As outlined in Why is your deposit non-refundable? the 30% deposit required to secure your place on a specific safari is non-refundable. If your plans have to be cancelled due to a medical issue or personal reason that is covered under your travel insurance policy then a claim can be made via your travel insurance provider and they will assess whether you qualify for a refund through your travel insurance policy. Please note that travel insurance policies do not process claims or issue refunds should a traveller change their mind or just want to change their plans.

Bobby-Jo Safaris will not be liable for any costs resulting from any traveller's failure to purchase sufficient travel insurance and all travellers participating in any tour are required to sign the booking form at the end of this document containing our full terms and conditions.

## VACCINATIONS

Bobby-Jo Safaris also recommends visiting your personal GP or travel vaccination service as soon as booking your safari to discuss your personal requirements that may be required in the form of injections or medications whilst travelling.

Vaccinations and medications will vary from person to person and only your GP or medical service can provide up to date and accurate information for your specific needs. Included in these discussions should be topics such as but not limited to Malaria, Yellow Fever & Hepatitis etc.
